PROFILE

Full-Stack Web Developer specializing in Next.js, React, and TypeScript. Fresh graduate in Informatics Engineering (Universitas Duta Bangsa Surakarta, GPA 3.69) building web applications end-to-end — from architecture and REST API design to deployment. Freelance web developer via KyanDev, designing, building, and shipping production websites for clients. Also experienced with Laravel, PHP, and MySQL, and comfortable translating business requirements into scalable solutions. Hands-on with AI integration: LLM-powered features, RAG, MCP, and multi-agent orchestration in real builds.
